

Nothing focusses on your chairman, like it does!

Now no more struggling in Video meetings to see your chairman clearly, who appears smallest of all, because the camera **does not focus automatically on them when they move & speak**, if they are sitting beyond 24 ft.

Business Octane presents the world's best automatic speaker tracking, **Dual Eye, 4K Intelligent Camera** which will track your speaker instantly up to 45 ft.

Key Features of this Amazing & Magical Tracking camera are as:

- All cameras stop tracking your chairman beyond 24 ft!
- This tracks your chairman up to 45 ft!
- Auto Framing, Speaker Tracking and Presenter Tracking.

1. Speaker Tracking - It will roll on your active speakers & presenters, framing them, putting them in focus as soon as they start speaking, showing them many times bigger.

2. Presenter Tracking - Presenter Tracking ensures the camera follows the presenters around the room, making them always in the center of the view of the camera.

3. Auto Framing -Auto Framing automatically recognizes the number and the positions of attendees. It frames the first meeting participant and then continually adjusts as more participants enter the space.

Other Important features are as:

- Dual eye 4K camera
- 4K video at 30 frames out per second
- 12x optical zoom, presenting crystal-clear video image
- Mechanical Pan, Tilt and Zoom
- Smooth PTZ control by remote control or Yealink camera control plug-in
- Audio integration, perfect work with Yealink audio device
- Support USB, HDMI, and VCH transmission

So, if you want to focus on your chairman, reach out to us - **You have to see it to believe it its magical long distance focusing!**

Seeing is believing!
