Professional Video Collaboration Table					
10	BO-108	BOSPL ProCollabSTATION - 17 Seater a). This Professional Collaboration station in "Rounded Trapezoid"/"Horse Shoe" shape is optimized for showing more of people & less of table top, built with BO proprietary stainless-steel legs which have special capability of holding three HDF tops encased with customer selected PVC veneer, as against normal one top only. This also allows easy reveineering of the top in future. b). Coupled with modesty panels till floor without any visible screws they provide housing for all wires raceways, AV equipments & equipment racks. This eliminates the need for raceways, conduits in the floor and separated rack space for the first time. c). Further the collaboration platform hides all the connecting cables of various equipment embedded on the top such as cable boxes, content monitors, microphones, speaker phones etc. d). It is also provided with telescopic rack for both front & rear rack access both from the front. e). ProCollabStation also has defined & matched space for all equipment's for high aesthetics. Also has marked seating lines. f). ProCollabStation also provides improved view to far site participants. g). Gives your collaboration in a box capability with complete future flexibility as the entire station can be assembled over a weekend, dismantled, packed & moved to another location.	8,60,000	1	8,60,000
Professional Digital Name Tag					
Optional	PAN-132	Panasonic Digital identification systems have transitioned from traditional paper inserts to advanced electronic labels that utilize high-contrast e-paper technology. These smart placards function without internal physical wiring for data, instead relying on wireless frequencies like 2.4 GHz RF or Bluetooth to receive real-time updates from a central server. This wireless architecture allows for sustainable, battery-powered operation that can last for several years, as energy is only consumed during a display change.	41,400	0	-
