Professional Digital Name Tag					
Optional	PAN-132	Panasonic Digital identification systems have transitioned from traditional paper inserts to advanced electronic labels that utilize high-contrast e-paper technology. These smart placards function without internal physical wiring for data, instead relying on wireless frequencies like 2.4 GHz RF or Bluetooth to receive real-time updates from a central server. This wireless architecture allows for sustainable, battery-powered operation that can last for several years, as energy is only consumed during a display change.	41,400	0	-
Professional Display Manager					
10	PVM-110	BOSPL ProVideoMANAGER for 3 nos of 55" Displays Elegant, monolithic structure which is built with modular design with heavy duty square aluminum sections to give high rigidity and is clad with MDF & customer approved PVC Veneer shade from given choices to give one of its kind beautiful free standing structure that houses three displays of 55", multiple cameras, speakers and cables. a)The unique design also allows mounting of the video cameras at perfect height for lowest parallax error to give highest possible eye contact to the far site participants. This also allows you to standardize high quality eye contact across your organization. b)Further it hides all the backs & sides of all displays, cameras, speakers & cables to give an absolute clean front as well as a clean back for high aesthetic appeal. c)This also gives it the capability to be mounted against glass partitions and windows while complimenting aesthetics ,giving you immense flexibility in the conference room design. d)Provision of opening upper & lower flaps ensures easy maintenance.	6,61,000	1	6,61,000
Professional Video Collaboration Table					
11	CLP-243	BOSPL ProCollabSTATION-SCL 15/ SCA 15/ HH 15 a). This Professional Collaboration station in "Semi Circular" shape with dual side local sitting is built with BO proprietary stainless-steel legs which have special capability of holding three HDF tops encased with customer selected PVC veneer, as against normal one top only. This also allows easy reveineering of the top in future. b). Coupled with modesty panels till floor without any visible screws they provide housing for all wires raceways, AV equipments & equipment racks. This eliminates the need for raceways, conduits in the floor and separated rack space for the first time. c). Further the collaboration platform hides all the connecting cables of various equipment embedded on the top such as cable boxes, content monitors, microphones, speaker phones etc. d). It is also provided with telescopic rack for both front & rear rack access both from the front. e). ProCollabStation also has defined & matched space for all equipment's for high aesthetics. Also has marked seating lines. f). ProCollabStation also provides improved view to far site participants. g). Gives your collaboration in a box capability with complete future flexibility as the entire station can be assembled over a weekend, dismantled, packed & moved to another location. h). The tapering design at the end adds a WOW feeling in your conference rooms.	9,10,000	1	9,10,000
